1 [Imposing a Memory Management Discipline on Software Deployment](#)

Eelco Dolstra, Eelco Visser, Merijn de Jonge

 May 2004 **Proceedings of the 26th International Conference on Software Engineering ICSE '04**

Publisher: IEEE Computer Society

 Full text available: [pdf\(365.54 KB\)](#) Additional Information: [full citation](#), [abstract](#), [citations](#), [index terms](#)

The deployment of software components frequently fails because dependencies on other components are not declared explicitly or are declared imprecisely. This results in an incomplete reproduction of the environment necessary for proper operation, or in interference between incompatible variants. In this paper we show that these deployment hazards are similar to pointer hazards in memory models of programming languages and can be countered by imposing a memory management discipline on software deployment ...

2 [CUTer and SifDec: A constrained and unconstrained testing environment, revisited](#)

Nicholas I. M. Gould, Dominique Orban, Philippe L. Toint

 December 2003 **ACM Transactions on Mathematical Software (TOMS)**, Volume 29 Issue 4

Publisher: ACM Press

 Full text available: [pdf\(135.88 KB\)](#) Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#), [review](#)

The initial release of CUTE, a widely used testing environment for optimization software, was described by Bongartz, et al. [1995]. A new version, now known as CUTer, is presented. Features include reorganisation of the environment to allow simultaneous multi-platform installation, new tools for, and interfaces to, optimization packages, and a considerably simplified and entirely automated installation procedure for unix systems. The environment is fully backward compatible with its predecessor, ...

"asynchronous installation" AND "parallel installation"

Nothing Found

Your search for **"asynchronous installation" AND "parallel installation"** did not return any results.

You may want to try an [Advanced Search](#) for additional options.

Please review the [Quick Tips](#) below or for more information see the [Search Tips](#).

Quick Tips

- Enter your search terms in lower case with a space between the terms.

sales offices

You can also enter a full question or concept in plain language.

Where are the sales offices?

- Capitalize proper nouns to search for specific people, places, or products.

John Colter, Netscape Navigator

- Enclose a phrase in double quotes to search for that exact phrase.

"museum of natural history" "museum of modern art"

- Narrow your searches by using a **+** if a search term must appear on a page.

museum +art

- Exclude pages by using a **-** if a search term must not appear on a page.

museum -Paris

Combine these techniques to create a specific search query. The better your description of the information you want, the more relevant your results will be.
